

TRAY TABLE

JULIA 164

Julia is a furniture family consisting of tray tables, serving trolleys and shelves with Scandinavian design and rounded shapes.

Julia tray stand fits together with Julia tray table (art.no. 064) and together it is a stylish and versatile piece of furniture. For example, it is suitable as a sideboard and coffee table.

Julia brickbord tillverkas i björk och är märkt med FSC®-Mix. Julia är ritad av Eva Schildt.

DIMENSIONS

Height	60 cm
Width	55 cm
Depth	38 cm

ADDED VALUE

- Stylish and versatile
- Fits together with Julia tray (art.no. 064)
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 15372

ACCESSORIES

- Frame in birch
- Frame in any color

REUSE

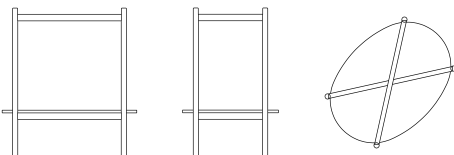

- Solid wood (leg stand)

 Any NCS-color available as an option on this product.

LAMINATE

Laminates are very durable surfaces that fit well in public environments.

- Daily cleaning with a dry cloth.
- For more difficult stains, non-abrasive cleaners can be used.
- Hardly ingrained stains or discolorations can usually be removed by carefully using a cleaning agent with a mild abrasive action.
- Rings and streaks that form on the surface are most easily removed with window cleaner.
- Do not use scouring pads or steel wool as this will cause scratches.
- Marker and ink marks can be removed with e.g. acetone or alcohol on a clean cloth.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
