

COFFEE TABLE

# HUMLAN 772

Humlan is an inclusive and welcoming furniture family with sofas, armchairs, chairs and tables in soft and rounded shapes that break the square room and create a soft and inviting environment. The table is available in birch, oak, stained in white and black as standard or in any NCS color. The top is available in birch veneer, oak veneer, birch laminate and white laminate.

The table height is 52 cm high and works as a set table for Humlan 770 and 771.

The furniture family is made of FSC-certified birch and oak. Humlan is labeled with Möbelfakta.

Serien är ritad av Eva Schildt.

DIMENSIONS

Height	52 cm
Width	60 cm
Depth	60 cm

## LAMINATE

Laminates are very durable surfaces that fit well in public environments.

- Daily cleaning with a dry cloth.
- For more difficult stains, non-abrasive cleaners can be used.
- Hardly ingrained stains or discolorations can usually be removed by carefully using a cleaning agent with a mild abrasive action.
- Rings and streaks that form on the surface are most easily removed with window cleaner.
- Do not use scouring pads or steel wool as this will cause scratches.
- Marker and ink marks can be removed with e.g. acetone or alcohol on a clean cloth.
- Disinfection can be done with alcohol if the surface is dried afterwards.

## WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
