

ARMCHAIR

DAHLIA 811

Dahlia is a fully upholstered, soft and comfortable family of sofas and armchairs. It is designed to create an inviting feel to the public environments of the future.

The armchair Dahlia 811 has been developed with high demands on durability and reuse. All with the possibility of replacing and repairing the various parts of the furniture for circular flows. It has an inclusive design that lasts over time.

Dahlia has removable and washable upholstery. The gap between the seat, back and frame makes cleaning easier. The base is available in birch, oak or metal (black).

The furniture family is made of FSC-certified birch and is labeled Möbelfakta.

Back cushions and side cushions can be ordered separately.

Dahlia är ritad av NC Design Studio.

DIMENSIONS

Height	85 cm
Width	90 cm
Depth	82 cm
Seat height	47 cm
Seat depth	50 cm
Höjd armledare	75 cm

Any NCS-color available as an option on this product.

- Rubber fabric/hospital fabric

REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
