

MODULAR SOFA

DAHLIA 814

Dahlia is a fully upholstered, soft and comfortable family of sofas and armchair. It is designed to create an inviting feel to the public environments of the future.

The modular sofa Dahlia 814 offers different solutions for increased function and variety in public spaces. Dahlia has been produced with high demands on durability and reusability, with the option of replacing and repairing the various parts of the sofa. Everything with design and construction that lasts over time, for increased durability.

The cover is removable and washable. The Dahlia furniture family is made of FSC-certified birch and is labeled Möbelfakta.

Back cushions and side cushions can be ordered separately.

Dahlia är ritad av NC Design Studio.

ADDED VALUE

- Inclusive corner sofa offered in a variety of variants
- Creates a sense of home in public environments
- Inclusive and embracing
- Easy to get to under the sofa, which facilitates cleaning
- Gap between seat, back and frame for best hygiene
- Removable upholstery
- Any NCS color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

ACCESSORIES

- Frame in birch or oak
- Frame in any NCS color
- Rubber fabric/hospital fabric

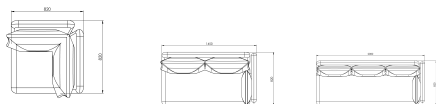

DIMENSIONS

Height	85 cm
Width	82 cm
Depth	82 cm
Seat height	47 cm
Seat depth	50 cm
Höjd armledare	75 cm

REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
