

FUNCTIONAL ARMCHAIR

FREJA 238

Freja is a versatile furniture family with armchairs, sofas and chairs with different functions and sizes with tactile materials that create a varied but harmonious and uniform expression.

Freja 238 is a stepless and adjustable functional armchair with a metal frame. It offers high comfort and is easy to use. The armchair has been designed for environments with high demands on cleanliness. For example, nursing homes and care homes. Freja 238 is tested for 160 kg user weight according to Möbelfakta's requirements.

Freja 238 comes with removable fabric in the seat and back, and has a gap between the seat and back, which facilitates cleaning. It can also be ordered with artificial leather that does not need to be dried up after disinfection.

Freja är ritad av NC Design Studio.

LEATHER

If you take care of the leather in the right way, it will become more beautiful over the years.

- Leather is heat sensitive. Therefore, direct sunlight and close contact with heating elements should be avoided.
- Vacuum the furniture to remove loose dirt and dust.
- Wipe the leather with a slightly damp cloth and a mild soapy solution can be used for cleaning.
- Water-based leather care products extend the lifespan.

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.
