

CHAIR

ELLINOR 047

Ellinor is a stileys furnitur family with a classic design. Ellinor is available in many versions to meet everyone's needs. The chair is available without frames and as an XL variant with extra seat width. Ellinor is also available as an armchair with two different seat heights, to make it easier for those who have difficulty getting up and down from a traditional chair.

The furniture family has a seat that is upholstered throughout and our smart gap to prevent dirt from getting stuck between the fabric-covered seat and the frame. The chairs are therefore easy to clean and contribute to the cleanliness of public spaces.

Ellinor is made of FSC-mix and meets Möbelfakta's requirements, making your purchase a sustainable and environmentally friendly choice.

Ellinor är ritad av Marie Norell Möller.

DIMENSIONS

Height	86 cm
Width	46 cm
Depth	55 cm
Seat height	46 cm
Seat depth	42 cm

Any NCS-color available as an option on this product.

- Rubber fabric/hospital fabric

REUSE

- Solid wood
- Removable upholstery

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
