

ARMCHAIR

FREJA 166

Freja is a versatile furniture family with armchairs, sofas and chairs with different functions and sizes with tactile materials that create a varied but harmonious and uniform expression.

Freja 166 is a classic chair with armrests and wooden ribs in the back. It is available in several different models and sizes, for increased accessibility and inclusion. For best hygiene, Freja has removable and washable upholstery and rubber fabric as standard. Freja 166 is tested for 160 kg user weight according to Möbelfakta's requirements.

Möbelfamiljen är tillverkad i FSC®-Mix och är märkt med Möbelfakta. Freja är ritad av NC Design Studio.

ADDED VALUE

- Customizable according to individual and needs
- Classic chair with modern function and comfort
- Rubber fabric as standard
- Removable upholstery
- Any NCS color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139
- Tested for 160kg

ACCESSORIES

- Frame in birch
- Frame in any NCS color
- Back cushion
- Sliding wheels
- +5 cm seat height
- Rubber fabric/hospital fabric

DIMENSIONS

Height	98 cm
Width	56 cm
Depth	53 cm
Seat height	46 cm
Seat depth	42 cm
Höjd armledare	67 cm

Any NCS-color available as an option on this product.

REUSE

- Solid wood
- Removable upholstery

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
