

TABLE

CHIKAN 2160

Chikan 2160 is a rectangular table with a length of 160 centimeters. It comes with stylish details such as finger-jointed corners. The table has a smart chikan solution without a frame, which makes it suitable as a dining table, for example. Chikan table series is available in five different lengths and is labeled with Möbelfakta.

Chikan är ritad av Matti Klenell och Peter Andersson.

DIMENSIONS

Height	73 cm
Width	80 cm
Length	160 cm

Any NCS-color available as an option on this product.

VIEWS

ADDED VALUE

- Stylish finger-jointed corners
- Smart chikan solution without a frame
- Available in five different lengths
- Any NCS color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 15372

ACCESSORIES

- Tabletop in birch, laminate or any NCS color
- Frame in birch or any NCS color

REUSE

- Solid wood

LAMINATE

Laminates are very durable surfaces that fit well in public environments.

- Daily cleaning with a dry cloth.
- For more difficult stains, non-abrasive cleaners can be used.
- Hardly ingrained stains or discolorations can usually be removed by carefully using a cleaning agent with a mild abrasive action.
- Rings and streaks that form on the surface are most easily removed with window cleaner.
- Do not use scouring pads or steel wool as this will cause scratches.
- Marker and ink marks can be removed with e.g. acetone or alcohol on a clean cloth.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
